DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on March 9, 2007 has been entered.

Terminal Disclaimer

2. The terminal disclaimer filed on January 10, 2007 disclaiming the terminal portion of any patent granted on this application, which would extend beyond the expiration date of U.S. Patent NO. 7,077,894 and any patent granted on Application NO. 10/503,894 has been reviewed and is accepted. The terminal disclaimer has been recorded.

REASONS FOR ALLOWANCE

3. The following is an examiner's statement of reasons for allowance: This application teaches an inkjet recording ink set comprising at least two inks, wherein each of the inks contains at least one dye having an anionic group and at least two heterocyclic groups, and wherein when any two inks in the ink set are mixed, precipitation of the dyes does not occur. The closest prior art of record is U.S. patent

No. 6,261,350, issued to Kabalnov and U.S. Patent Application Publication No. 2004/0163568, issued to Berger et al. Both references teach an inkjet ink set comprising at least two inks but fail to teach or fairly suggest that **each** (emphasis added) ink in the ink set contains a dye having an anionic group and at least two heterocyclic groups as claimed by applicants. Accordingly, this application is allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
